- Test per million of Population: 1,525 Case per million Population: 112
- Total COVID 19 test conducted 10,801 by Borno State
 - Initial test 10,473
 - Follow up test 328

Case Management:

- No case on admission UMTN isolation centres at the end of epi-week 41
- 1 patient discharged at the end of the week
- Total discharges –709, No death reported for the week
- 1 Patient in self-Isolation.

Infection Prevention and Control:

- Public enlightenment campaign on the use of facemask

Risk communication/Social mobilization:

- Over 110,000 caregivers sensitized on COVID-19 by UNICEF VCMs in 20 LGAs. Messages focussed on voluntary sample testing, timely reporting of cases, de-stigmatization, hand washing, and use of face mask.

- Jingles on benefit of facemask, handwashing, social distance and de-stigmatization is ongoing in Kanuri, Hausa, Shuwa Arab and Mbura on BRTV, DANDAL KURA and PEACE FM radio station sponsored by UNICEF and CHRISTIAN AID.
- Point of entry activities is continues in LGAs with passengers sensitized on use of facemask, handwashing, social distance and environmental hygiene.
- IOM conducted COVID-19 awareness campaign and sensitization through risk communication and community engagement to a total of 479 persons in Maiduguri LGA.

MHPSS:

- WHO, through its mhGAP response teams provided COVID-19 sensitization and counselling of 118 patients (males: 43, females: 75) and their care givers in Jere LGA across 4 health facilities.
- MDM also provided MHPSS interventions through health talk, psychoeducation and sensitization and individual counselling sessions with focus on mental health and stigma reduction in relation to COVID-19
- IOM provided both individual and group sessions of lay counselling to 38 beneficiaries (males: 19, females: 19) on positive coping skills, and how to access support to cope with challenges occasioned by COVID-19.

Challenges:

- Lack of compliance on the use of face mask by the general public & HCWs.
- School readiness and preparedness for reopening after COVID-19 closure
- Sub-optimal sample collection at Point entry into the state.

Next Step:

- Continue contact tracing and Monitoring of already identified contacts
- Continue Community Active Case search/ surveillance
- Public enlightenment campaigns on use of face mask.
