Very high risk

* The reporting of **health facility level IDSR data** is currently being rolled out across Borno State. Whilst this is taking place, some LGAs are continuing to report only at the level of local government area (LGA). Therefore, completeness and timeliness of reporting is displayed at both levels in this bulletin.

** **Alerts** are based on 7 weekly reportable diseases in the national IDSR reporting format (IDSR 002) and 8 additional diseases/health events of public health importance in the IDP camps and IDP hosting areas.

B. Indicator-based surveillance

Summary

Figure 1a | Proportional morbidity (W40)

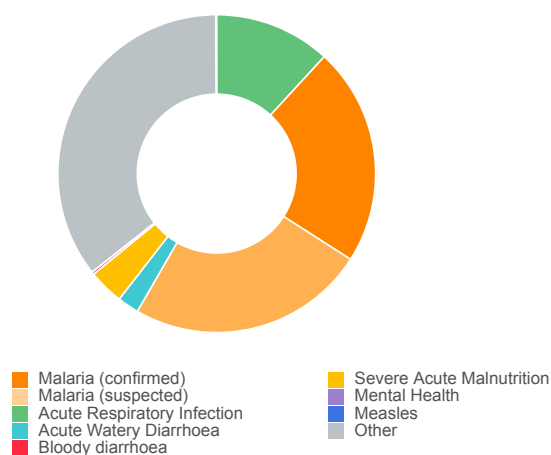

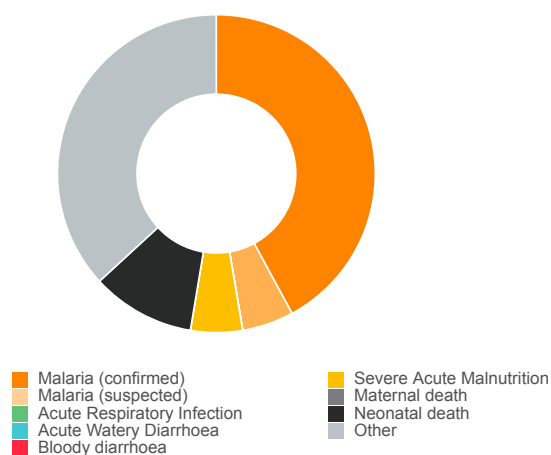

Figure 1b | Proportional mortality (W40)

Statistical tables [Show](#)

Table 1a | Weekly and cumulative number of reported cases

Syndrome	W40		Cumulative 2020	
	# cases	% morb. ¹	# cases	% morb. ¹
Malaria (confirmed)	9,012	22.2%	265,581	14.3%
Malaria (suspected)	9,838	24.3%	387,323	20.8%
Acute Respiratory Infection	4,799	11.8%	327,346	17.6%
Acute Watery Diarrhoea	885	2.2%	35,158	1.9%
Bloody diarrhoea	105	0.3%	7,590	0.4%
Severe Acute Malnutrition	1,452	3.6%	64,048	3.4%
Mental Health	30	0.1%	3,236	0.2%
Other	14,412	35.6%	771,254	41.4%
Total cases	40,540	100%	1,863,687	100%

¹ Proportional morbidity

Table 1b | Weekly and cumulative number of reported deaths

Syndrome	W40		Cumulative 2020	
	# deaths	% mort. ²	# deaths	% mort. ²
Malaria (confirmed)	8	42.1%	78	14.4%
Malaria (suspected)	1	5.3%	38	7.0%
Acute Respiratory Infection	0	0.0%	8	1.5%
Acute Watery Diarrhoea	0	0.0%	0	0.0%
Bloody diarrhoea	0	0.0%	0	0.0%
Severe Acute Malnutrition	1	5.3%	19	3.5%
Maternal death	0	0.0%	12	2.2%
Neonatal death	2	10.5%	86	15.8%
Other	7	36.8%	302	55.6%
Total deaths	19	100%	543	100%

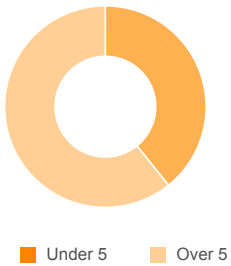

² Proportional mortality

Table 1c | Immediately notifiable diseases (IDSR 002)

Disease	W40		Cumulative 2020	
	# cases	# deaths	# cases	# deaths
AFP ¹ /Polio	3	0	93	0
Measles (suspected)	7	0	2,151	4
Meningitis (suspected)	1	0	19	0
Cholera (suspected)	0	0	3	0
Viral Haemorrhagic Fever (suspected)	0	0	11	3
Yellow Fever (suspected)	2	0	77	0
Guinea worm (suspected)	0	0	0	0
Human Influenza (suspected) ²	0	0	0	0

¹ Acute Flaccid Paralysis ² caused by a new subtype

Figure 2a | Age breakdown

Total case fatality due to malaria in W40 was 0.0% .
